## Application

### Stackable LID

## Applications

SI-D0060P0 a product design in 90's but still a hot cake in ice-cream supply chain. The product is mainly used in ice-cream retail distribution fitted on the bicycle / motorbike / trucks in rural and semi-rural country sides. The main USP of this products is the thickness and insulation properties of the tub which differentiate from others. It can be also used in other application such as dairy, retail, beverage, meat and poultry, seafood etc. It comes with a plain lid which is lockable. Inside the box it can be used with ice, dry ice or chill pads.
